Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Obersteiner (US 6418837). The patent to Obersteiner discloses the claimed subject matter except for such design features of a cover configuration having a first cover configuration and a second cover configuration together bound a hollow space, and in which the hollow space serves to and is adapted to accommodate at least one accessory of the kitchen appliance wherein at least two tools are combinable to form a tool unit. However, such design features are considered obvious features that are deemed an obvious matter of design choice and well within the ordinary skill in the art and it would have been further obvious to one having ordinary skill in the art at the time the invention was made to have provided Obersteiner with such a structural design feature as claimed along with the features variously recited in the dependent claims, since applicant has not disclosed that such design features solve any stated problem and it appears that the invention would perform equally well. The remaining limitations would then have been obvious design choices only.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new grounds of rejection.
